

Victor Agwu

Data Analyst | Business Intelligence Analyst

Transforming Data into Actionable Business Intelligence

Professional Portfolio 2026

Professional Profile

Analytical and detail-oriented Data Analyst with an engineering background and strong expertise in SQL, Python, Excel, Power BI, Tableau, and business intelligence reporting. Experienced in extracting insights from complex datasets, building dashboards, and supporting strategic decision-making.

Core Skills

- Data Analysis & Visualization
- Dashboard Development (Power BI, Tableau)
- SQL & Database Management
- Python (Pandas, NumPy, Matplotlib)
- Business Intelligence & KPI Reporting
- Data Cleaning & Transformation
- Geographic Analysis (QGIS)

Professional Experience

Freelance Data Analyst (2023–Present)

Delivered analytics solutions, developed executive dashboards, automated reports, and provided data-driven recommendations for clients across multiple industries.

Education

Bachelor's Degree in Engineering

Relevant areas: Statistics, Operations Research, Project Management, Mathematical Modeling.

Featured Projects

Sales Performance Dashboard

Created executive dashboards and automated sales reporting, reducing reporting time and improving KPI visibility.

Customer Churn Analysis

Analyzed customer behavior and developed predictive insights to support retention initiatives.

Financial Data Analysis

Performed financial performance reviews and identified opportunities for cost optimization.

Geographic Data Analysis (QGIS)

Conducted spatial analysis and created location intelligence reports for business planning.

Certifications (Recommended)

- Microsoft Power BI Data Analyst Associate
- Google Data Analytics Professional Certificate
- IBM Data Analyst Professional Certificate

Value Proposition

I help organizations transform raw data into strategic business decisions through analytics, visualization, reporting automation, and actionable insights.
